

## TPL-0814MM

|                |              |                      |
|----------------|--------------|----------------------|
| 分辨率            | 100lp/mm     |                      |
| 靶面尺寸           | 1/2"         |                      |
| 接口             | C-Mount      |                      |
| 焦距             | 8mm          |                      |
| F值             | F1.4-F16     |                      |
| 后截距            | 11.02mm      |                      |
| 光圈类型           | M-Iris       |                      |
| 视场角<br>(DxVxH) | 1/2"         | 54°x33.6°x43.8°      |
|                | 1/3"         | 41.11°x25.36°x33.4°  |
|                | 1/4"         | 28.07°x17.06°x25.36° |
| 畸变             | < -0.7%      |                      |
| 工作距离           | 0.1m-∞       |                      |
| 设计波长           | 400-700nm    |                      |
| 滤镜尺寸           | M30.5x0.5    |                      |
| 尺寸             | Φ32.5x38.5mm |                      |
| 重量             | 100g         |                      |
